The safety of Canal Point school children walking to and from school from homes north of the Palm Beach Canal was the concern of the Canal Point Parent-Teacher Association at the February meeting held in the school auditorium Monday night with Mrs. Joe Chaffery, Jr., president presiding. ## Handful Complain Hospital Idea Dead

The proposed bill to consolidate the public hospital boards of the Pahokee and Belle Glade districts, and build a new 150-bed hospital building on SR 715 approximately half way between Pahokee and Belle Glade, received such strong opposition from Belle Glade physicians and a handful of land owners at the legislative clinic in Belle Glade last week that the board at Belle Glade this week withdrew its support of the bill and the proposed merger appears to be a dead issue for the present.

In a statement to the press Thursday (Feb. 9) William S. Plumer, chairman of the Northwestern Palm Beach County Public Hospital Board, which operates the Everglades Memorial Hospital at Pahokee, said, "Our Board has been advised by the Southwestern Palm Beach County Public Hospital Board (which operates the Belle Glade Memorial Hospital) of their action at a meeting held on Monday afternoon, recinding their support of the proposed legislation to consolidate the two hospital districts. In view of this action, our Board, of course, will not pursue the matter further, since this was a joint proposal."

Here's what the new  $3\frac{3}{4}\%$  interest rate on U.S. Savings Bonds means to you:

$\$3 = \$4$  fourteen months faster than before

*The Bonds you own are better than ever, too*

The new  $3\frac{3}{4}\%$  rate means your savings grow faster than before with U.S. Savings Bonds. \$3 becomes \$4, or \$3,000 becomes \$4,000 in just seven years, nine months. This applies to all Series E Bonds bought since June 1, 1959.

Then, all older Bonds, both Series E and H, pay more now—an extra  $\frac{1}{2}\%$  from June 1 on, when held to maturity.

And, all Series E Bonds carry a new 10-year extension privilege. This means your Bonds will keep earning liberal interest automatically after maturity.

These three new cash benefits make today's U.S. Savings Bonds the finest in history. They make the ones you own now better, too.

*More advantages of U.S. Savings Bonds*

You can save automatically. Just tell your company how much to deduct every payday for Bonds, and your Bonds will be delivered to you. This way you can't forget to save. And, remem-

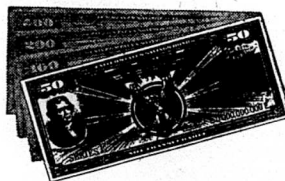

ber, the money you don't touch can't slip through your fingers.

You can get your money, with interest, when you need it. Your Bonds are a ready reserve to use anytime you wish. But, it pays well to hold them.

Your savings can't be lost or stolen. The U.S. Government guarantees to replace your Bonds, free, if anything ever happens to them.

You save more than money. The Bonds you buy help keep the peace because peace costs money. Money for better education, new scientific research, greater military strength. And the money you save helps strengthen our nation's economy which depends on the financial strength of individuals to keep it sound.

Start saving with U.S. Savings Bonds today. You'll save more than money.

Bridesmaids were the Misses Lynne Henzle, Jacquelyn Glen and Willie Sibert, all Navy WAVES, who wore their dress blue "A" uniforms and carried white Bibles letered in gold.

The bride, given in marriage by Alfred Lawson, RM2, wore a white floor-length gown of silk satin with lace bodice. From a satin bow in the back lace-satin panels extended to form a chapel train. She carried a bouquet of white carnations in the shape of a cross and a white lace handkerchief which had been carried by previous brides in the Darney family, including the groom's mother.

Mrs. Darney joined the Navy WAVES after graduating from Pahokee High School in 1959. The couple are making their home in Liberty Grove, Md.

### SENIOR GIRL SCOUTS

Members of Senior Girl Scout Troop 38, at a meeting with their leader, Mrs. E. C. Johnson, at the Johnson Clinic, made bandages for cancer patients and enjoyed group singing. Plans were discussed for Troop 38 Scouts to assist at the Indianatow rodeo. A party for intermediate Scouts to 164 to acquaint intermediate Scouts with senior Scout activities was also discussed, according to Elaine Salvatore, troop reporter.

Mr. and Mrs. R. J. Lund of Red Field, Iowa, visited with Mr. and Mrs. E. E. Kane.

### Tampa Fair Gets Four New Directors

TAMPA—Four prominent Floridians were unanimously elected new directors of the Florida State Fair at the annual pre-fair meeting of the non-profit corporation which directs the big exposition, showing this year for 11 days, February 7-18.

The new directors are state Senator Wilson Carraway of Tallahassee; William H. Dial of Orlando, former state road board member; Joe K. Hays of Winter Haven; and former State Senator William A. Shands of Gainesville.

In keeping with the statewide character of the fair, the new directors are from outside of Tampa. Twelve directors not residing in Tampa are now serving on the board.

Dial, vice president of the First National Bank of Orlando, is also a former member of the State Board of Control.

Carraway, a former Tampa resident and a former member of the Casparilla Krewe, is now serving his third term as chairman of the state senate's appropriation committee. He is president of the Tallahassee State Bank and is a Coca-Cola distributor in Tallahassee.

Hays, citrus grower and banker, is also a member of the board of directors of Tampa Electric Co., and a former member of the State Racing Commission.

Shands served in the state senate from 1941 until his retirement in 1957 and served as president of the body in his final session as a member.

### SODABUSTER CIRCLE

The Sodabuster Garden Circle, at a meeting at the home of the president, Mrs. Edgar Wilder, made plans for a workday at Pioneer Park on Feb. 13, when members will prepare cuttings of the ornamental shrub, podocarpus, for rooting. Mrs. Ruth Meredith, supervisor of city parks, was present at the meeting to conduct a roundtable discussion of South Florida gardening problems.

### SORORITY MEETING

President Joan Tucker presided at the meeting of the Xi Alpha Phi Chapter, Beta Sigma Phi Sorority, at the home of Mrs. Evelyn Lair, with Mrs. Florence Kane, co-hostess. The sorority's Valentine Ball and service projects for the coming year were discussed. Mrs. Sarah Thomas presented a program on "Australia," with members participating.

Mr. and Mrs. Jack Wilson visited friends at Deerfield Beach Sunday.

### Boating Gaining On Intracoastal

Boating enthusiasts using the northeast portion of Florida's intracoastal waterway stepped up passings at the Palm Valley bridge by 44 per cent during the past ten years, the Florida State Chamber of Commerce reported yesterday.

"Pleasure boats checked at the bridge averaged 86 a day, coming to 3,133 for the year. Most pleasure craft bound for southern Fla. use this protected waterway during the fall and winter months. Last year's southbound passings at the bridge came to 1,674 which included local traffic as well as out-of-state. On the return trip in the spring, larger boats often take the outside route resulting in a lowered number of northbound passings. A clue to the number of these larger pleasure boats which visit Florida shows up in the difference between north and south bound traffic. The past ten years have averaged a difference of 233 passings and 1960 stood just under this figure.

"Use of the waterway by commercial boats, as checked by Army Engineers, fluctuates highly from year to year. Barges, pontoons and motor boats registered 47 per cent more passings last year than in 1950 while fishing vessels dropped one-third.

"All told, private vessels of all types, plus a few government boats, made 4,779 passings at the bridge last year. This figure is one per cent over 1959 and 50 per cent greater than in 1950."

### We'll Spend Money Where It's Profitable

TALLAHASSEE — Chairman - Director Wendell Jarrard of the Florida Development Commission has made a switch in the tourist advertising policy of the commission. He has abandoned nationwide advertising to concentrate Florida promotion in the eastern half of the United States.

Jarrard said only three per cent of Florida's visitors come from the western half of the country. He said he believed it was better to concentrate the tourist advertising in the east.

"This enables the commission to buy more space in more publications," he said.

Most nationally circulated magazines sell advertising on a regional basis, permitting the advertiser to place ads in editions which are circulated in specific areas.

### Gas Stations Not So Lucrative In State

Retail gasoline service stations in Florida, suffering from excessive competition, experience a 37 per cent dealer turnover a year, according to an article, "Service Station Glut," appearing in the February issue of Florida Trend magazine.

"There are many other dealers who would like to get out of the business if they could find someone to buy their inventories and take over their leases," the business publication states.

Root of the problem is the fact there are too many service stations, dealers say. They claim the number of retail outlets, already 12,000 in the state, is increasing at a high rate than demand for the product.

Blaming the major oil companies for this condition, one dealer said: "The oil companies encourage starvation conditions by putting up too many of their own franchised stations, and by selling gasoline to private brand, cut-rate outlets at less than they charge their own dealers."

### FATHER-SON BANQUET

Canal Point Lions had as guests their sons at the club's annual father-son banquet held in the Community Building this week. Larmer Williams, Pahokee High School senior, entertained the group by doing intricate roping tricks with his lariet. J. G. Weels was in charge of program arrangements.

Mr. and Mrs. E. M. Jardine have returned to their home at Jefferson, Iowa, after spending several weeks in Pahokee and Canal Point.

## Pick your savings target and shoot straight for it!

**A** home . . . financial security . . . a business of your own. Important savings targets like these cost money—a substantial sum—and more than most of us have. But here's a sure way for you to score a bull's-eye and walk off with the big prize you want.

The secret of saving is system. And the simplest, most automatic saving system ever devised is the Payroll Savings Plan. Best of all, you do more than save through Payroll Savings. You invest your money, too, and make it grow. Here's how it works:

Tell your company pay office how much you want to save each week. Then each pay period that amount will be put aside for you before you have a chance to spend it. Your money will go automatically into U. S. Series E Savings Bonds.

Because Savings Bonds earn good interest—3% compounded semiannually when held to maturity (9 years and 8 months),—they're soon worth much more than you've invested in them. And your Bonds will continue to pay that same good interest as long as 19 years and 8 months. That means a return of up to 80% more than you originally paid.

And remember this. There's no guesswork or chance about the Payroll Savings Plan. It's absolutely safe and sure. Invest just \$1.50 a week. In 5 years you'll have Savings Bonds worth \$2058 in cash; in 10 years, \$4448.

Even if you've never been able to save before, this plan is guaranteed to work for you. So sign up today for Payroll Savings where you work—or invest in Bonds regularly where you bank.

# New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones  
you own now are better than ever*

**Q:** How does the new  $3\frac{3}{4}\%$  interest rate benefit me?

**A:** With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to  $2\frac{1}{4}\%$  for the first year and a half; then a guaranteed  $4\%$  each year to maturity.

**Q:** When did the new rate become effective?

**A:** June 1, 1959.

**Q:** Does the new rate change the Bonds I bought before June 1, 1959?

**A:** All older E and H Bonds pay more now—an extra  $\frac{1}{2}\%$  from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

**Q:** Will the Bonds I own automatically earn their new rate?

**A:** Yes. You don't need to do a thing—just hold on to your Bonds.

**Q:** When my E Bonds mature, will they keep on earning interest?

**A:** Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

**Q:** With the new interest rate, should I cash in my old Bonds and buy new ones?

**A:** No. The automatic  $\frac{1}{2}\%$  increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

**Q:** How are series H Bonds different from series E Bonds?

**A:** The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

**Q:** In what denominations can I buy series E and series H Bonds?

**A:** E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

**Q:** How safe are U.S. Savings Bonds?

**A:** Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

**Q:** What if my Bonds should be lost, stolen or destroyed?

**A:** You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

**Q:** Where can I buy Bonds?

**A:** Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

**Q:** How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

**A:** Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.

# NEWS HEADLINERS

(By Paul Rardin, Real Estate Editor)

Here in this spot every now and then we will make an attempt to bring our readers up-to-date on real estate happenings in the area of Palm Beach County west of 20 Mile Bend in this wonderful area known far and wide as the Lake Okeechobee Farming Region. If you have a real estate transaction you'd like for the world to know about, just get in touch with the recently appointed Real Estate Editor of The Everglades News.

Grady Boynton of Canal Point has leased his 1285 acre cattle ranch east of Canal Point on Conners Highway to Chase and Company, vegetable growers of Sanford and this area. The price was \$30 per acre annually. The lease is for five years with Chase having the right of refusal at that time at the prevailing lease price whether it be \$30 or more or less. An option to buy is also contained in the lease.

Pioneer Growers, Inc. of Belle Glade, have purchased the A. J. Sullivan Ranch at Six Mile Bend east of Belle Glade. The tract contains 2500 acres.

Robert Hatton of Pahokee has purchased 400 acres of muck land in the Belle Glade area. It is located back of Sam Knight's section which borders on the Airport Road running east from Belle Glade.

As reported last week Mr. and Mrs. Paul Sasser and Mrs. Thelma Vandegrift sold a half section—320 acres—to the U. S. Sugar Corporation for \$208,000. The land is located southeast of

Pahokee and will be planted to cane by U. S. S. Corp.

The lease price is gradually going up on muck land. Jake Williams of Canal Point has leased the 800 acres lake bottom land west of Chosen that Curtis Thompson has been farming. The acre lease price was \$40. It is state land.

Walter G. Hull and the Hull Packing Company of Pahokee recently consummated a deal whereby they purchased 704.6 acres of muck eight miles east of Canal Point just north of Conner's highway and north of the West Palm Beach Canal. Seller was C. B. Baker of Charlottesville, Va. The purchase price was announced at \$93,000.00, by Thurmond W. Knight, Riviera Beach Realtor, who handled the deal. Ralph Johnson of Pahokee and Herbert Gibson of West Palm Beach.

Mr. and Mrs. Fred Woodcock visited his brother and sister-in-law, Mr. and Mrs. Lane Woodcock, in West Palm Beach over the weekend.

## Importance Of Palms Is Told USDA Club

Dr. J. Frank Joyner spoke on "The Importance of Palms to Man" at the February meeting of the Everglades USDA Club in the Community Building at the Glades Park, Canal Point. The speaker, now serving as research agronomist with the Cotton and Cordage Fibers Branch, USDA, at the Everglades Experiment Station, became interested in palms in the early 1930's while employed as secretary and traveling companion to Dr. O. F. Cook, founder of the Bureau of Plant Exploration, USDA, and specialist on tropical plants. Since then, Dr. Joyner, through extensive research, has expanded his knowledge on palms to the extent he is recognized as an authority on the subject.

Of the species of palms native to the United States, numbering no more than 18, 12 are to be found in Florida. Contrary to popular thought, the more hardy species of palms can be grown outdoors along the Atlantic Coast as far north as North Carolina and Virginia and inland as far north as Arkansas, as well as along the Gulf Coast and California, the speaker said.

Many palms in the "juvenile" stage of growth have grass-like leaves, and many years pass sometimes before the adult leaves, which distinguishes them as palms, are formed. Consequently, many seedling palms which sprout in yards as volunteer plants are destroyed in weeding operations because they are not recognized.

Palms are grown primarily in the United States as ornamentals, but have many economic uses as well. For example, in Florida the native cabbage palm, and sabel palmetto, is used for fiber. A factory in Jacksonville has used the cabbage palm for many years for the manufacture of brooms, brushes and novelty articles. Indians still make thatched roofs of palm leaves. Oils extracted from the fruits on seeds are used in the manufacture of soap, edible products, cosmetics, cans, synthetic rubber and many other products used in the home every day. Wax from the leaves of the carnauba palm is a basic ingredient of many kind of polishes, carbon paper and phonograph records. The trunks of palms are used for pilings and lumber and are processed for the manufacture of wallboards, ropes and upholstery padding.

Palms are used, one might say, for almost everything, as food from "soup to nuts," and as building materials from foundation to roof, inside and outside the house, according to Dr. Joyner. It is little wonder the statement has been made that "next to the grasses," the palm family is the most important in the plant kingdom from the standpoint of usefulness to man."

## Carpenter Agency In New Location

The Carpenter General Insurance and Real Estate Agency, operated by O. D. Carpenter and son, Milton Carpenter, is moving its offices this week from West Main Street, next to Nola's Shop, where it has been located for the past 15 years, into the Armstrong building at 129 North Lake Ave. The interior of the north half of the building has been remodeled for the Carpenter Agency offices and the south half will be continued to be used as studios for Pahokee radio station WRIM.

## WORKS FOR DR. YOUNG

Mrs. Leonard Maxson recently resigned after serving on the nursing staff at the Everglades Memorial Hospital for two years, and is now working in the offices of Dr. Wilburn C. Young at Canal Point. This is not a new position for Mrs. Maxson as she held her present job in Dr. Young's office, 1940-43.

"Chartreuse Caboose"

## "I Insure You"

Yes, your savings account here is Federally insured up to \$10,000.00. If your wife has a separate account in her own name, it is insured to the same amount, giving your family \$20,000.00 in insurance protection against loss of any kind. That's just one reason why it pays to save at Everglades Federal Savings & Loan! For remember, you get an unusually high rate of interest return, too. We pay a full 4 1/4% on all savings, with interest added to principal twice each year. If you make your deposit before the 10th of the month, you get full interest credit for the whole month.
